

Specifications

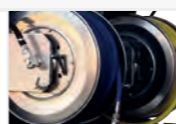

Trailerjet-S 200/21 Trailerjet-S 300/15

Working pressure	200 bar	300 bar
Flow rate	21 L/min.	15 L/min.
Motor rating	Kubota 11,6 Kw	Kubota 11,6 Kw
Max. burner power	100 kW (12V)	100 kW (12V)
Max. water temperature	102 °C	102 °C
Capacity fuel tank	60 L	60 L
Capacity water tank	500 L	500 L
Stainless steel HP reel	45 mtr.	45 mtr.
Stainless steel LP reel	25 mtr.	25 mtr.
Dimensions	-- (L) 230 x (W) 160 x (H) 160 cm --	
Reg. weight unbraked version	750 kg	750 kg
Reg. weight braked version	1300 kg	1300 kg
WeedPLUS®	option	option

+ 500L CAPACITY WATERTANK
Large volume HDPE tank, divided into compartments for maximum stability/perfect road-handling.

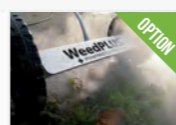

+ STAINLESS STEEL REELS
High-quality stainless steel reels with 45 meters high-pressure hose and 25 meters low-pressure hose.

+ KUBOTA DIESEL ENGINE
One of the most reliable and efficient diesel engines, intended for intensive use.

HOT WATER WEEDCONTROL
With the WeedPLUS® option it is possible to control up to a maximum of 2000 m² of weeds per hour.

Contact us for full list of options.

meclean is a SIR (Stichting Industriële Reiniging) member. If desired a Trailerjet-S high-pressure cleaning trailer can be delivered with SIR certification.

Quick and professional service...

With different service locations throughout Europe and availability of technicians worldwide we are able to guarantee a response time of max. 24 hours everywhere in the world. In most cases the service needs can be resolved within a couple of hours and often on location.

Top-notch quality

During development and production, meclean® only uses quality components such as a KUBOTA diesel engine, stainless steel burner system, stainless steel mounting material and no unnecessary electronics. This guarantees a long-term, worry-free deployment.

Sales & service:

Warranty

- 2 years (in combination with service agreement)
- 10 years on high-pressure pump head

Lease or buy?

Leasing can be an interesting option. Please feel free to ask your dealer or meclean®. You can calculate an estimated monthly term on meclean.eu/leasen Please be aware that this is just an indication and it will differ per country.

Demonstration?

Do you want to see our Trailerjet-S high-pressure cleaning trailer in full action? Contact your dealer or meclean to schedule a demonstration on location.

Trailerjet-S

meclean®

Modest in size and price, great finish and performance

- KUBOTA diesel engine
- Stainless steel reels
- Water tank 500 litres
- Durable, mechanical technique

DURABLE THANKS TO SIMPLICITY

The functional, robust appearance of our Trailerjet-S high-pressure cleaning trailers characterises our approach to technology and the way in which our Trailerjet-S high-pressure cleaning trailers are constructed. Meclean®'s vision, that technology must be practical and that only functionality, reliability and good, fast service are important, results in a Trailerjet-S which very clearly reflects our professional and pragmatic outlook on technology.

Meclean® consistently selects the best components and knows better than any other that unnecessary electronics do not add anything. **Meclean® opts for proven, mechanical technology.**

+ 500L CAPACITY WATER TANK
Large volume HDPE tank, divided into compartments for maximum stability/perfect road-handling.

IN-HOUSE ENGINEERING

All Trailerjet-S high-pressure cleaning trailers are developed in-house: it starts from a drawing and evolves to building the machines in our own assembly plant.

EXPERTS IN CUSTOM WORK

A Trailerjet-S can be equipped with different options. Both versions, the list of options (including, among others, LED flashlights, WeedPLUS®, SIR certification...) together with the expertise of our technical team, make it possible for us to focus fully on the end-user's wishes.

Let our practical professionals help you put together your ideal Trailerjet-S.

Modest in size and price,

Trailerjet-S

great finish and performance

EXHAUST
Streamline / stainless steel

FLOW-ACTIVATED BYPASS
Pressure relief on entire system.
(less wear & tear on hoses, pistols etc...)

IMPACT-RESISTANT FIBERGLASS COVER
Optionally also available in other RAL colours

KUBOTA DIESEL ENGINE
(water-cooled)

STAINLESS STEEL BURNER
High efficiency burner / 110 kW,
also suitable for GTL / biodiesel

STAINLESS STEEL REELS
(with 45 metres high-pressure hose and 25 metres low pressure hose)

OPTION: WeedPLUS®
For ecologic weed control, activated by simply pressing the button.

WATER TANK
(HDPE tank, 500 L, divided into compartments to avoid swinging)

FUEL TANK
(HDPE tank, 60 L.)

CONTROL PANEL
(very simple and effective layout)

(control panel)

WeedPLUS®

This optional environmental-friendly hotwater weedcontrol technique is easily activated only by pressing a button. WeedPLUS® uses pure (drinking) water.

By overheating the weed plant it can be exterminated in a environmental-friendly way, without any use of chemicals.

The best alternative

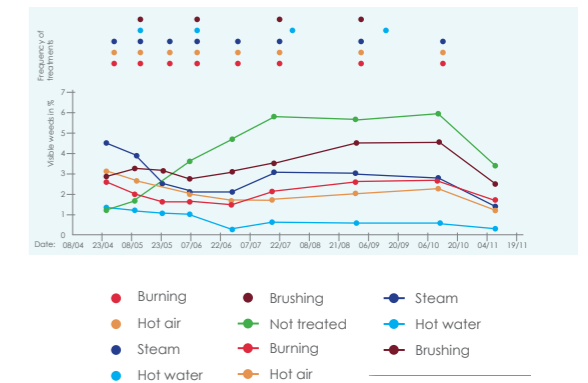

Controlling weeds with WeedPLUS® is possible anywhere. With the sprayer head and spray beam on wheels you can work extremely selectively, with no collateral damage.

Sprayer head

Spray beam 50cm
